- HTML
- CSS
- JavaScript
- Bootstrap framework expertise
- Expert React.js
- NodeJS
- ExpressJS
- MongoDB
- Understanding of Redux
- Responsive website

PROJECTS

- **Construction Management System:** Developed Construction Management System Web App using the MERN stack (MongoDB, Express.js, React.js, Node.js) to streamline and optimize construction project workflows. The system features project Assigning, and real-time progress tracking.
- **OP ZONE-online op ticket :**OP ZONE is an online platform that simplifies booking outpatient (OP) tickets for medical consultations. Patients can book appointments with doctors from home, choosing their preferred hospital and time slot. This service eliminates long wait times, providing a convenient and efficient way to access healthcare.
